

EVA FLIGHT TRAINING ACADEMY

YOUR DREAM IS ABOUT TO TAKE OFF!

EVA Flight Training Academy has Launched All FAA-approved Flight Training Courses

All our pilot training programs have been FAA-approved, including Private Pilot License, Commercial Pilot License, Instrument Rating, Certified Flight Instructor, Certified Flight Instructor–Instrument, Certified Flight Instructor– Multi-Engine, Multi-Engine add-on, and Upset Prevention and Recovery Training. If you are interested in a career in commercial aviation or simply an aviation enthusiast, register now via wip@evafta.com.

In addition, we also provide Discovery Flight service which includes a 1-hour flight on our well-maintained Diamond aircraft with G1000, campus tour and safety briefing, to anyone who has an appetite for the sky and see our state capital Sacramento in a way they have never experienced before.

Despite the ongoing COVID-19 pandemic, the health and safety of all our instructors and students remain to be the primary concern and commitment of EVA Flight Training Academy. We continue to follow the school's already-established COVID-19 guidelines, pay close attention to all the latest development, adhere to government mandates, and strictly require everyone to continue practicing social distancing, mask wearing and more. Per CDC regulations, we require international students to self-quarantine for 10 days. However, if they have received a negative PCR result after 3 days, they can end their self-quarantine after 7 days and immediately begin their training. We will also provide assistance to those who wish to be vaccinated.
